

24 VOLT AC ELECTRO MECHANICAL HORN

24 VOLT AC ELECTRO MECHANICAL HORN

The 24 volt AC electro mechanical horn is designed to produce a loud penetrating horn tone for many signaling applications on industrial, commercial and institutional facilities.

The 24 volt AC low voltage and low current provides for economical wiring and easy installation.

FEATURES

- Penetrating mechanical horn sound
- Low operating current
- Light weight plastic design
- Screw terminals – easy installation
- Low voltage
- Outdoor when used with outdoor box
- UL listed

APPLICATIONS

- **Manufacturing Facilities** warning signal for machinery operations, supervision and monitoring of power, temperature, heating and other manufacturing variables where an audible warning sound is desired
- **Material Handling** Ideally suited for conveyor systems, lifts and other material moving devices where an audible warning signal is required
- **Early Failure Alarms** pumps, boilers, compressors, re Fridgeration, air conditioning and other environmental controls
